

## Quality Policy

ABCorp 3D is a global manufacturer and supplier of bespoke medical devices, including but not limited to baby cranial helmets, custom insoles, and exoskeletons. ABCorp 3D is committed to being a good corporate citizen and to continuously improving the way it develops, applies, and provides practical and environmentally responsible products and services.

Our Company's business commitment is based on customer satisfaction, supported by best practices, continuous improvement, training and motivation, employee participation, responsibility, and accountability.

Our Company's vision is to become the market leader of high-quality products and services that will consistently exceed customer expectations in the markets we serve.

This will be achieved by:

- Complying with all legal and statutory requirements
- Defining and implementing clear responsibilities and accountabilities at all levels throughout the organization; treating our employees fairly and with respect.
- Serving our customers to our best ability; providing efficient products and services to satisfy or exceed customers' requirements.
- Continuous improvement of our processes to increase the Company level of performance.
- Defining Key Performance Indicators measuring quality, industrial performance and service level to our customers.
- Training employees to do it right, the first time, every time.
- Maintaining quality management systems in accordance with ISO 13485 and applicable industry standards in all segments of our activities.

Throughout the ABCorp 3D organization, every employee must adhere to all policies and procedures implemented in the Company and contribute to and take responsibility for quality. It is the challenge of all the employees of our company to strive for excellence in quality.

William Brown  
CEO/Chairman of the Board  
ABCorp 3D Inc.  
November 2024
